

Bambu Filament

Technical Data Sheet V1.0

PLA Silk

• Basic Info

Bambu PLA Silk offers a silk-like and high-glossy that adds a luxury appearance to your prints while retaining PLA's ease of use. Different with other silk filaments, Bambu PLA Silk was toughened and demonstrates greater resistance to breakage when using AMS printing. Bambu PLA Silk is ideal for decorations, artistic projects, and 3D character models or any parts where you want it shinier.
